# Simulacrum in political discourse

Uliana Smirnova

Moscow City University, Moscow, Russian Federation

# Designing a simulacrum. Make America Great Again.

We showed America **the silent majority is no longer silent**. Today, we created **an America that WINS again**. Today, **we made our hopes, our dreams** – our limitless potential – **a reality**. Today, we made history. Today, we created a government that is once again of, by and for the people.

Thank you, America. I will not let you down. **I will always be your voice**. **I will always be your champion**. Now it's time to get **to work – to unite, to prosper, to become stronger**. Together, I have no doubt we have taken the first step to Make America Great Again!
